

PEERLESS™

Modified Vegetable Oil Surfactant Blend

4-IN-1 ADJUVANT

Provides superior spreading, penetration and activation of herbicides, fungicides, insecticides and defoliants. The methylated vegetable oil ensures complete penetration through the waxy leaf cuticle.

PEERLESS benefits include:

- Blend of organosilicones, premium vegetable oils, nonionic surfactants and buffering agents
- Low use rates
- Provides faster and more complete coverage of leaf surface than conventional nonionic surfactant
- Superior penetration
- Rain fast in minutes
- 98% active

PEERLESS™

Modified Vegetable Oil Surfactant Blend

PRINCIPLE FUNCTIONING AGENTS:

Methyl esters of C16-C18 fatty acids, polyalkyleneoxide	
modified polydimethylsiloxane, alkylphenol ethoxylate.....	100.0%
TOTAL.....	100.0%

WARNING
KEEP OUT OF REACH
OF CHILDREN

GENERAL INFORMATION:

PEERLESS is a 100% active premium blend of highly effective surfactants and modified spray oil. It provides superior spreading, penetration and activation of herbicides and defoliants, because **PEERLESS** contains organo-silicones. It offers faster, more uniform distribution of active material on the leaf surface than conventional spreaders. The vegetable oil ensures complete penetration through the waxy leaf cuticle. **PEERLESS** can be used with wettable powders, emulsifiable concentration or solution formulations of most of the pesticides now on the market.

DIRECTIONS FOR USE:

Preparation of spray material

1. Fill spray or mix tank with 1/2 to 3/4 of the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide.
3. Add the required amount of **PEERLESS** and continue agitation until a uniform pesticide application.

NOTE: Maintain constant agitation of the spray mixture during standing and application to assure uniform pesticide application. Add the remaining volume of water and mix contents thoroughly.

APPLICATION RATE:

DILUTE RATES:

Ground Application- Use 3 to 5 pints of **PEERLESS** per 100 gallons of spray solution in combination with the recommended pesticide.
Aerial Application- Use 4 to 6 pints of **PEERLESS** per 100 gallons of spray solution in combination with the recommended pesticide.

CONCENTRATED RATES:

Ground Application- use 4 to 8 ounces of **PEERLESS** per acre in 10 gallons of spray solution.
Aerial Application- use 6 to 24 ounces of **PEERLESS** per acre in 10 gallons of spray solution
